Discover Depot's Art Displays This Autumn

Side by Side Show

September 10-October 26

This is one of the most anticipated shows of the year, challenging members to create new works, inspired by other artists' images. There are crossovers in media, such as a stained-glass work inspired by a painting, or jewelry inspired by a Japanese wood print.

Each entry is accompanied by a personal commentary, giving the viewer an insight into the artist's motivation. A visit to the show treats you to an outstanding variety of creative thinking and artistic expertise. Side by Side is open until October 7. Come in and vote for your favorite: The People's Choice.

From the President's Pen

GOOD NEWS!

We will be receiving a grant of $7000 from the Scientific and Cultural Facilities District (SCFD) for next year's budget. A big thanks to Judy Strickland for her work crafting the grant proposal.

We are getting "on the map" with over 1300 visitors since early May! The number of Depot shows will increase to thirteen in 2025, with three new venues to our present seven, bringing the number of off-site exhibits to ten!

The Littleton Fine Arts Guild provides members with many, many opportunities to showcase their work; actually more offerings than any other art guild in Colorado.

We are indeed a unique community of artists and artisans dedicated to supporting one another in the exploration of creativity. Our monthly meetings provide time for building friendships and keeping up to date with the evolution of our group.

I am so proud to be your president,

Jackie Shuler
